

Saving colab notebook to pdf

1. Try file -> print -> save to pdf -> save and see if the outputted pdf looks okay.
2. If the output looks okay, then you're done. Otherwise, proceed to the next step.
3. If the output does not look okay, then file -> download -> download .ipynb.
4. Use an online .ipynb to pdf converter. I recommend the one from vertopal
<https://www.vertopal.com/en/convert/ipynb-to-pdf>
